

Seawolf
DESIGN, INC.

IBEX

FRP Equipment / Seawolf Design will be at IBEX 2007!
The annual International Boatbuilding Exhibition and
Conference held in Miami Beach, Florida October
10th - 12th.

Come by and see us in booth 2412.

We'll be ready to provide the information you need to
start reclaiming your waste and capitalize on our systems
that provide material, labor, and disposal fee reductions.

As well as our many other innovative processes.

We will also be giving live demonstrations in the outdoor
area, stop by and see the reclaimed spray up system and
our labor saving No-Roll formulation in action.

Contact us and we will provide you with an invitation and
registration form, it's free to all industry representatives.

Or go to www.ibexshow.com

Equipment

Still paying someone to haul away
your trimmings and fiberglass waste?

It's time to reclaim your investment and reuse that
material, let us show you how.

Call us at 1-877-716-4820 or visit
www.compositeworld.com

Seacast

Don't put your boat away for the winter with a
soggy transom!

Seacast made by FRP Equipment Inc / Seawolf Design
is our famous do-it-yourself lifetime transom
replacement material.

If you are an existing customer of FRP
Equipment Inc, we'll give you and your
employees a 10% discount on Seacast
through October.

Mention your company name when
ordering.
